# Private Collection of late Kazutaka Unno Honorary Professor of Osaka University (Simple Overview)

Total numbers of the Collection: Original Maps c. 250 Facsimile more than 100

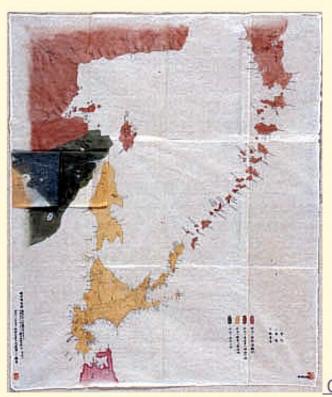

### **Unno Collection**

Old rare maps of China are donated to us by famous geographer Kazutaka Unno. In March of this year, Professor Unno has proposed the donation of his map collection to NICHIBUNKEN, but unfortunately in the process of negotiation he has passed away in May. After his demise, his family proposed the donation of all the materials in his private library including maps, books, journals and photos, so we received all of them and named them "Unno-Bunko."
