NDL - POST-QUAKE

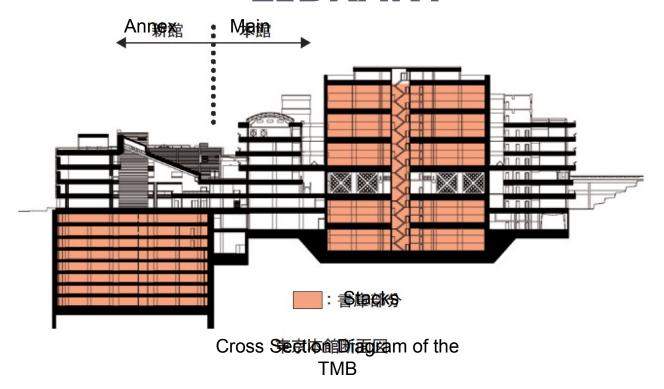

BEFORE MARCH 11

AFTER MARCH 11

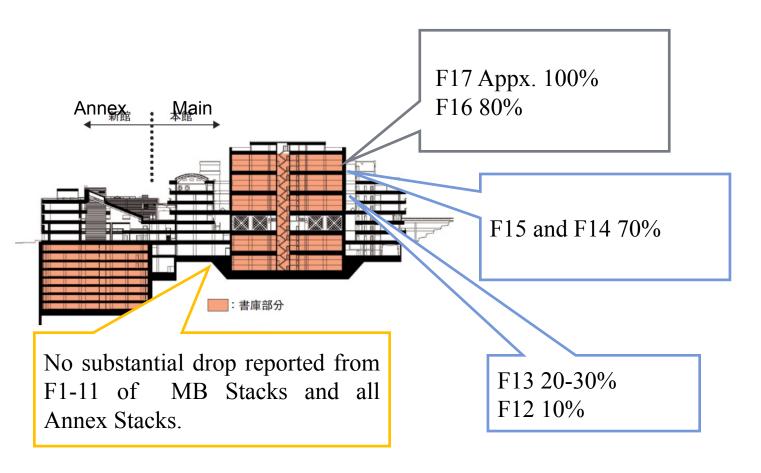

STRUCTURE OF TOKYO MAIN LIBRARY

- Main Building (b.1968) Multilayered-structural stacks (11 floors above, 6 under-ground). Now being upgraded to be earthquake resistant
- Annex Building (b.1986) Underground 8 floors of stacks

DROP-OFF RATE IN STACKS

Total of 1.8 million vols. fell off the MB stacks.

POST-QUAKE OPERATION

- Opened on March 12 (Sat.) but only periodicals served. 318 visitors (average of daily visits around 1,688 in FY2010).
- Closed on March 14 (Mon.) due to Tokyo-wide traffic disruption.
- Operated 2 hours less from March 15 (Tue.), closing at 17:00. Books in the affected stacks remained untouched, also compromising Diet and remote user services.

RESTORATION PROCESS

- F12 and 13 restored within March by the Book Service Division. In service from April 1 onward.
- F16 and F17 restored between March 22-31: 104 man-day average, total of 833 did the work. In service from April 11.
- F14 and 15 restored by an outsourced company entrusted with book delivery. In service from April 25.

IT COMES DOWN TO MANUAL LABOUR

NORMALIZING THE SERVICE

- All the materials available and operating hours back to normal (9:30-19:00) from April 25
- Small portion of collection physically damaged (around 300 vols.)
- Further challenges ahead
 - ✓ Damage control measures (for higher floors)
 - ✓ Common rules to ensure security in a disaster
 - ✓ Accurate relay of information and communication

SUPPORTING AFFLICTED REGION

GOVERNMENTAL SUPPORT TO REBUILD DAMAGED SOCIAL-EDUCATIONAL FACILITIES

First supplementary budget allocates 8.7 billion yen to *Grants for Rebuilding Public Social-Educational Facilities*.

- Applicable area148 municipalities in 9 prefectures.
- Applicable buildings
 Public social-educational facilities (libraries, civic centers, museums, gymnasiums etc.) damaged by the earthquake.
- Local burden

 Grants cover 2/3 of the expense. Local authorities allowed to issue bonds for the rest of which 95% will be covered by local tax grants.

ROLES PLAYED BY THE JAPAN LIBRARY ASSOCIATION

- Organizing and dispatching groups of volunteers
- ✓ Help-Toshokan team⇒b/w Apr.-May and Jun.-Jul.
- ✓ Volunteer coordination portal⇒7/13-. A system to coordinate book restoration
- Channeling relief resources
- Monetary donation targeted at 20 million yen (€180k, £158k)⇒67% met as of end of June
- ✓ Corporate contribution⇒materials and labour for book-coating, book-trucks, administering the on-line digital book library etc.

ROLES PLAYED BY THE JAPAN LIBRARY ASSOCIATION (CONT'D)

• Placing a temporal and partial stay on authors' right of public transmission (agreement with 8 major stakeholder bodies).

- ✓ Enables copies to be sent via fax and e-mail
- ✓ Enables duplication of materials to be used for story-reading for the vulnerable in the affected areas
- ✓ Effective where and when "normal procurement of needed materials is difficult"

OUTLINE OF THE SUPPORT BY THE NDL

(1)Supporting restoration and preservation of materials in the afflicted libraries

- (2)Archiving web resources of the earthquake to be handed down to posterity
- (3) Contributing to the national debate in the Diet on disaster, reconstruction and nuclear power

RESTORATION AND CONSERVATION OF DAMAGED MATERIALS

- Field investigation to assess the needs for restoration and conservation in the affected areas (5/9-11)
- Miyagi Prefecture: Prefectural Library
- ✓ Iwate Prefecture: Prefectural Library, Kamaishi City Library, Noda Village Library
- ✓ Fukushima Prefecture: Prectural Library
- One staff member dispatched to support restoration of damaged materials (5/30-6/2)
- ✓ Iwate Prefecture: Noda Village Library

THE STATE OF NODA VILLAGE LIBRARY 01

THE STATE OF NODA VILLAGE LIBRARY 02

THE WORK DONE AT NODA VILLAGE LIBRARY

- Sorting
- ✓ Severely damaged, replaceable materials to be discarded
- ✓ Unique local historical materials to be listed and restored
- Securing manpower
 Neighboring libraries contributed 10 staff a day under the guidance of the Prefectural Library
- Restoring damaged materials
- ✓ Brushing off dried mud
- ✓ Alcohol wiping to remove mold

TOTAL OF 240 MATERIALS SAVED

ARCHIVING WEB RESOURCES OF THE EARTHQUAKE 01

Archived through the NDL's Web Archiving Project

30

ARCHIVING WEB RESOURCES OF THE EARTHQUAKE 02

- Based on National Diet Library Law amended in 2009
- ✓ NDL empowered to archive "public" websites without permission
- ✓ The NDL allowed to request the organizations to directly transmit web contents which cannot be harvested by web crawler.
- Intensive archiving carried out in post-quake period
- Cooperation with foreign organizations
- ✓ Internet Archives
- ✓ Reischauer Institute of Japanese Studies

CONTRIBUTING TO THE NATIONAL DEBATE IN THE DIET

Various reports to the National Diet compiled by the Research and Legislative Reference Bureau

- Reports on disaster
- Reports on use and safety of nuclear power

FURTHER ISSUES TO TACKLE

Providing training in restoring damaged materials

 Helping develop a system for adjusting demand and supply in recovery activities

Dispersing books to multiple areas
