

Current situation

- until 2014 digitization project "SSG 6.25 digital" funded by the German Research Foundation (DFG), amongst the digitized materials also nearly 570 titles of the pre-modern Japanese holdings, including 46 handscrolls
- searchable in our various catalogues and partly (374 titles) through the 新日本古典籍総合 データベース or completely through "Japan Search" (effort by the ARC of Ritsumeikan University)
- images and data are publicly available via the Digitised Collections of the library, use of the library's presentation platform and viewer technology (all its advantages and limitations)

CC-BY 4.0

Examples of handscroll presentation (projects)

University of Chicago, Center for Art of East Asia -> East Asian Scroll Paintings https://scrolls.uchicago.edu/

Seattle Art Museum -> Chinese Painting & Calligraphy http://chinesepainting.seattleartmuseum.org/OSCI/

Princeton University -> Scrolls of the Mongol Invasions on Japan http://digital.princeton.edu/mongol-invasions/index.php

Heidelberg University, IKO -> Hachiman Digital Handscrolls https://kjc-sv038.kjc.uni-heidelberg.de/hachiman/#044115/

Bukkyô University Library Digital Collections https://bird.bukkyo-u.ac.jp/collections/subject/picturescroll-picturebook/

Bank of Japan Currency Museum https://www.imes.boj.or.jp/cm/research/2021emaki/index.html

13 September 2022 Nichibunken (renewed version) -> https://lapis.nichibun.ac.jp/ema/List

Question: Might the use of iiif-technology provide a solution?

Miradorの新機能で国デコの絵巻画像をつなげる (Gimpで位置合わせ編)

IIIF IIIF応用 Mirador

今回の記事は、前回の続編ということで、国デコ(国立国会図書館デジタルコレクション)の絵巻画像をサーバ上では分割されたままで配信しつつ、IIIF対応ビューワMirador上でつなげて閲覧するための位置情報の取得を比較的効率的に行うための作業手順についてのご紹介です。

< 用意するもの>

ここでは、gimpを使ってみます。これは、GUIによるフリーの画像処理ソフトとしては最強クラスのソフトで、個人的にはこの20年ほどお世話になっております。(開発者のみなさまありがとうございます)

```

Thematic portal on Japanese handscrolls – draft version

hurdles encountered – mainly image related

scrolls at both ends of the image

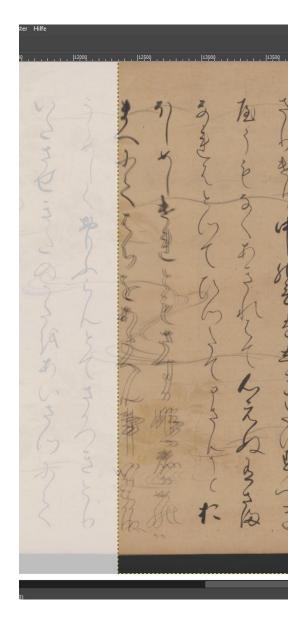

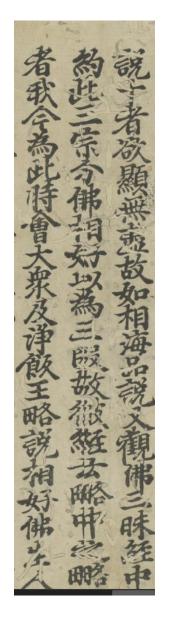

extremely wide images facilitating a slight curving of the scroll (fan-shape) and thereby...

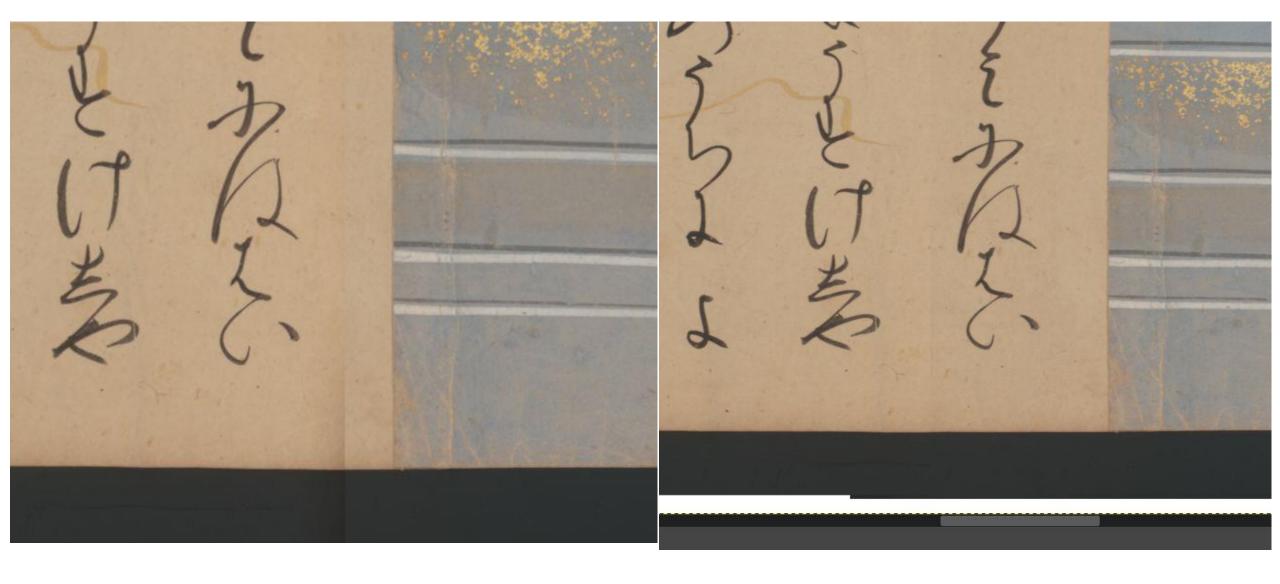

...resulting in problems when overlaying/ overlapping/aligning the images

uneven lighting during scanning of the scrolls -> shadows

Summary

• lessons learned (so far) ...

• expect to publish the site in December 2022 – remaining tasks ...

• future developments/applications ...

Thank you for listening!
